

GFMD Mobile App

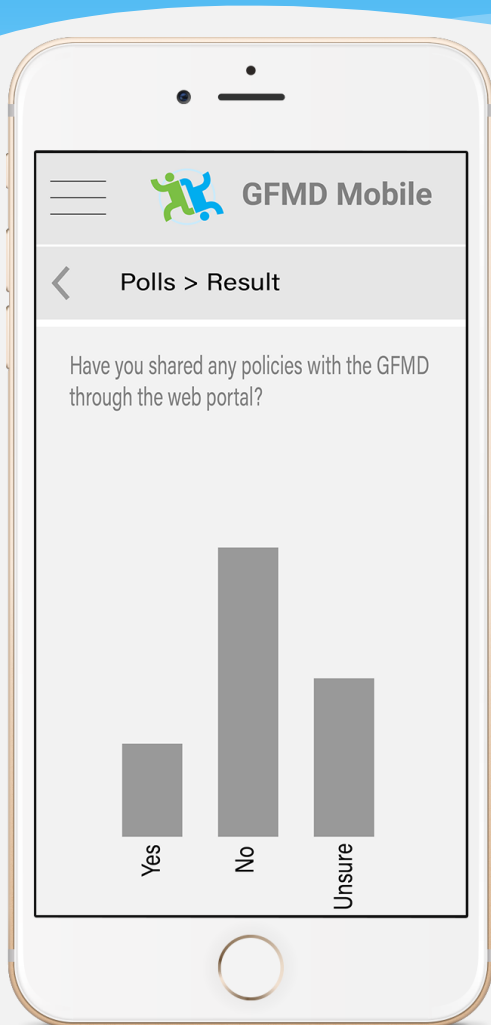

The GFMD Mobile App is an application that can be used on both iOS and Android devices.

It is a sustainable, long-term and reusable solution offering a multitude of features.

Its aim is to simplify access to information about the GFMD

Increasing interaction

- * Secured Area (Requires Login)
- * Live conference feedback (when logged in)
- * Ability for trusted participants to start new policy question

Summit Registration

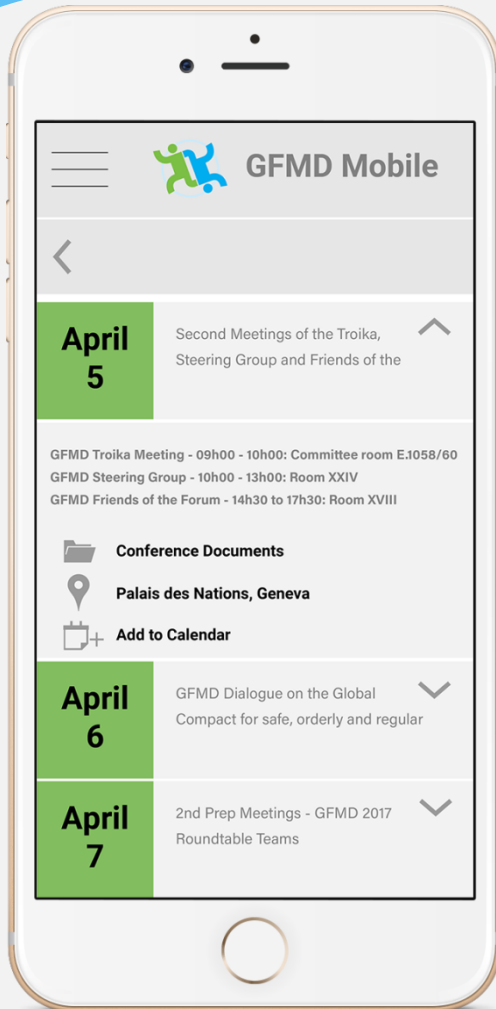

The image shows a smartphone screen displaying the GFMD Mobile registration form. The form is titled "Registration Details Continued" and includes the following fields:

- First Name*
- Last Name*
- Email*
- Address 1*
- Address 2
- Country
- City*
- State*
- Zip Code*

Seamless integration with the existing GFMD Web Portal so focal point credentials can be used for Summit registration and other secure features.

- * Secured Area (Requires Login)
- * User friendly form with the ability to upload a "selfie" through the mobile device

Access to latest Documents

Latest documents hosted on the website will be immediately synchronised with the App.

- * Calendar view of meetings with relevant Documents, and map locations
- * Ability to add events to one's personal calendar

Direct Communications through push notifications

- * Mobile notifications when:
 1. An event is about to start
 2. New prepared statement uploaded
 3. New policy question added
 4. New Newsletter / Web article published
 5. New Quips and Clips published

- * Ability to customise the notifications to specific needs

Access to Media

- * Access to GFMD Video and photo galleries

Plans for the future

- * Integrated "Chat" to encourage networking.
- * “Discussion Boards” used to increase interactivity by enabling users to post comments and ideas which can then be seen by everybody.
- * “Business Card” to facilitate the sharing of contact details between participants
- * Login will be required for all sections of the App. Currently open until focal points receive usernames and passwords for 2017.

GFMD App Timeline

- * 10/03/2017 - *Identification of Requirements*
- * 03/04/2017 - *Approval of Requirements*
