

Global Forum on
MIGRATION & DEVELOPMENT

GFMD Turkey 2014-2015

Thematic GFMD Meeting 1:
**Migration in the Post-2015
UN Development Agenda**

Geneva, 05 February 2015

Session 1:

Promoting Decent Work

- What is the **key priority** of your government when it comes to promoting decent work for migrants?
- What **indicators** would you like to see measuring progress towards this target?
- Please share about your government's **initiatives** to –
 - upgrade the **labour standards** for migrants
 - improve **employment, wages and working conditions** of migrants.

Session 2: Facilitating Well-managed Migration

- What is the **key priority** of your government when it comes to facilitating well-managed migration?
- What **indicators** would you like to see measuring progress towards this target?
- Please share about your government's **initiatives** to –
 - facilitate **legal channels** of migration
 - reduce **recruitment costs**
 - facilitate access to, and portability of **social security coverage**
 - promote **recognition** of skills and qualifications

Special Session:

Questions for Mr. Ratha

- What will be the **three indicators** that you would like to propose for including in the Post-2015 Development Agenda?
- What **meetings/ workshops is the GMG planning** where the Post-2015 indicators and data issues related to migration would be discussed? Will these events be open to GFMD delegates?
- Reducing remittance costs** is one of the goals / indicators that is being proposed in the OWG paper, in the element paper of the preparatory meetings for the Financing for Development Conference and in the G-20. What is your view on what the GFMD governments would need to do to achieve the proposed targets?
- How do you envisage the **contributions of the GMG, the GFMD to the G-20 process** since Turkey is the Chair? It would be important that we use these fora to move the migration and development agenda forward.

Special Session:

Questions for Mr. Hovy

- How can countries work with the GMG in **developing the indicators** and **clarifying the definitions**?
- How should countries go about their **statistical development strategies**?
- Since migration will be a new set of indicators, could you discuss the **cost implications, data quality and element of continuity** for the countries?
- How can countries **tap available resources** if they need to strengthen their statistical capacity in data-collection?
